Maharashtra SMART Solar Scheme 2026 - Complete Guide

The **Maharashtra SMART (Swayampurna Maharashtra Residential Rooftop) Solar Scheme 2026** is a flagship initiative by the Maharashtra government. It helps low-income households install rooftop solar systems at a highly subsidized cost, enabling them to generate free electricity and reduce their power bills.

This guide covers key benefits, eligibility, and the application process in a simple format.

Key Benefits

- **Heavy Subsidy:** Up to 95% for BPL families (central + state support)
- **Free Electricity:** Generate up to 120+ units per month for 25 years
- **Low Net Cost:** For a 1 kW system, BPL families pay only approx. ₹2,500 - ₹15,450

Eligibility

- **Resident of Maharashtra** with an active domestic MSEDCL electricity connection
- **Average monthly consumption** below 100 units
- **Belongs to priority category:** BPL (Below Poverty Line), EWS (Economically Weaker Sections), or SC/ST

How to Apply

- Visit the official portal: mahadiscom.in
- Click on "*New Registration*" and enter your mobile number and MSEDCL consumer number
- Complete OTP verification and check feasibility using the solar calculator
- Select system capacity (1 kW to 3 kW) and choose an empaneled vendor
